ROPP (Referenčni okvir za pluralistične pristope k jezikom in kulturam) in pluralistični pristopi v Sloveniji

Stran nudi pregled razvoja pluralističnih pristopov v Sloveniji in gradiv v slovenskem jeziku.

Pregled projekta ROPP:

Za kaj gre? Gre za izčrpen opis in konkretno uporabo večjezičnih in medkulturnih kompetenc ter virov, ki jih pri pouku najboljše razvijamo s t. i. pluralističnimi pristopi. Na ta način Referenčni okvir za pluralistične pristope (ROPP) pomembno pripomore k doseganju izobraževalnih ciljev Sveta Evrope za področje jezikov in kultur.

Kaj so pluralistični pristopi? Izraz pluralistični pristopi k jezikom in kulturam se nanaša na didaktične pristope, ki v učnem procesu vključujejo sočasno rabo več (ali vsaj več kot ene) različic jezikov ali kultur. Asproti temu pristopu so... **več**.

Kdo bi moral poznati Okvir za pluralistične pristope (OPP)? Učitelji vseh predmetov, ki jih zanima večjezično in medkulturno izobraževanje, izvajalci usposabljanj za učitelje, odločevalci, snovalci kurikulumov, avtorji učnih načrtov in učbenikov.

The story of a mouse

A mouse was walking around the house with her young. All of a sudden, they heard a cat. The baby mouse was very frightened. The cat was coming closer. The mother mouse said to her baby: "Don't be afraid. Listen!" And to the young mouse's greatest surprise, she started barking: "Woof, woof, woof !" Now, it was the cat's turn to be scared, and it ran off... The mother turned to her baby and said: "See how useful it is to be bilingual !"

Of course! You have tried to establish links between languages!

A brief activity
**The plurilingual

YOU are the

What kind of
**knowledge /
attitudes / skills**
can be developed
by this activity?

I think, with
this kind of
activities, my
students
would become
aware that...

Yes, and they
would become
able to

We shouldn't
forget the
attitudes !

Think of it
individually
during 2 minutes.

**Write down your
ideas.**

Step 2

A link with the plurilingual and pluricultural competence

We have seen that when confronted with a new language, we refer to the languages we already know...

Of course! You have tried to establish links between languages!

Psycholinguists agree about the existence of *o n e* system

This conception relies on psycholinguistic research work done about language acquisition in the last decades
(cf. Herdina & Jessner, 2002)

... the views of psycholinguists may differ concerning the existence of “separate systems” within this global plurilingual competence.

Link to the *Common European Framework of Reference for Languages*

”... a given individual does not have a collection of distinct and separate competences to communicate depending on the languages he/she knows, but rather a plurilingual and pluricultural competence encompassing the full range of the languages available to him/her.”

http://www.coe.int/t/dg4/linguistic/Source/Framework_en.pdf

But the descriptors provided by the CEFR deal with abilities in ONE language, taken in isolation...

Table 1. *Common Reference Levels: global scale*

Proficient User	C2	Can understand with ease virtually everything heard or read. Can summarise information from different spoken and written sources, reconstructing arguments and accounts in a coherent presentation. Can express him/herself spontaneously, very fluently and precisely, differentiating finer shades of meaning even in more complex situations.
	C1	Can understand a wide range of demanding, longer texts, and recognise implicit meaning. Can express him/herself fluently and spontaneously without much obvious searching for expressions. Can use language flexibly and effectively for social, academic and professional purposes. Can produce clear, well-structured, detailed text on complex subjects, showing controlled use of organisational patterns, connectors and cohesive devices.
Independent User	B2	Can understand the main ideas of complex text on both concrete and abstract topics, including technical discussions in his/her field of specialisation. Can interact with a degree of fluency and spontaneity that makes regular interaction with native speakers quite possible without strain for either party. Can produce clear, detailed text on a wide range of subjects and explain a viewpoint on a topical issue giving the advantages and disadvantages of various options.
	B1	Can understand the main points of clear standard input on familiar matters regularly encountered in work, school, leisure, etc. Can deal with most situations likely to arise whilst travelling in an area where the language is spoken. Can produce simple connected text on topics which are familiar or of personal interest. Can describe experiences and events, dreams, hopes and ambitions and briefly give reasons and explanations for opinions and plans.
Basic User	A2	Can understand sentences and frequently used expressions related to areas of most immediate relevance (e.g. very basic personal and family information, shopping, local geography, employment). Can communicate in simple and routine tasks requiring a simple and direct exchange of information on familiar and routine matters. Can describe in simple terms aspects of his/her background, immediate environment and matters in areas of immediate need.

Step 3

**Pluralistic
approaches to
languages and
cultures**

**If this competence is global...
then language teaching
should help students to build
bridges between languages /
cultures they know or learn.**

One can distinguish two kinds of teaching approaches :

- *pluralistic approaches to languages and cultures*, referring to didactic approaches which use teaching/learning activities involving several (i.e. more than one) varieties of languages or cultures;
- approaches which might be called “*singular*” in which the didactic approach takes account of only one language or a particular culture, and deals with it in isolation.

A basic principle of any learning:

Pluralistic approaches help learners to establish links with what they already know and can already do.

Thereby pluralistic approaches contribute to the teaching and learning of specific languages.

They do by no means replace classes for French, Italian, German, English, etc.

Investigating links between languages at appropriate phases and regularly.

Four pluralistic approaches

Awakening to languages / Eveil aux langues

Integrated didactic approach

Intercomprehension between related languages

And also of course ... the intercultural approach

Awakening to languages (Language awareness):

Defined as an approach in which *some of the learning activities are concerned with languages which the school does not intend to teach.*

Recognition of the languages “brought” into the school by allophonic children

Integrated didactic approach to different languages studied:

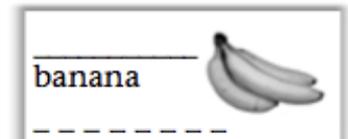

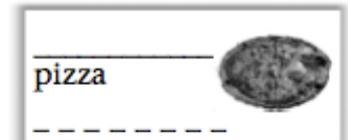

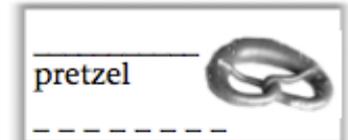

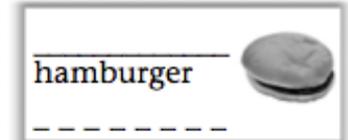

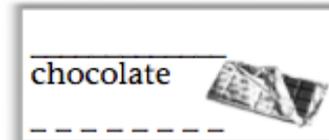

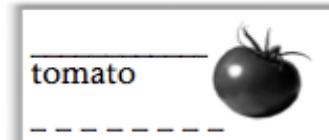

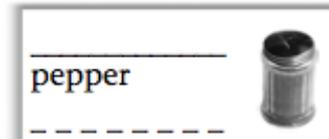

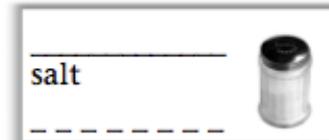

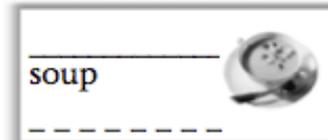

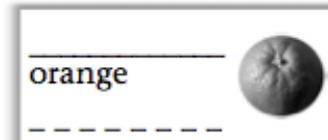

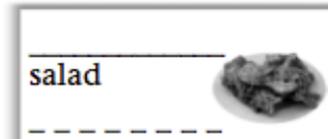

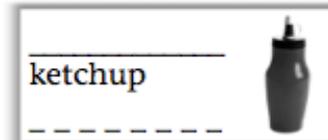

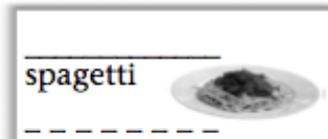

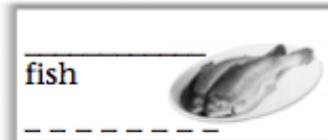

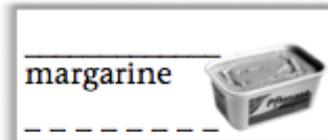

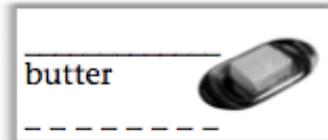

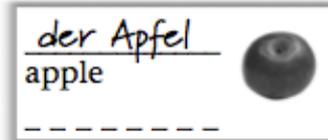

... directed towards helping learners to establish links between all languages studied within the school curriculum.

Based on a general principle underlying every learning process: relying on what is known to deal with what is less known.

And: mutual support between languages going in both directions.

An example: German after English (*Deutsch ist easy!*)

Ü 1 Schreiben Sie die deutschen Wörter und die Wörter in Ihrer Muttersprache.

der Apfel · die Banane · die Brezel · das Brot · die Butter · der Fisch · der Hamburger
das Ketchup · die Margarine · die Orange · die Pizza · der Pfeffer · der Salat · das Salz
die Schokolade · die Spaghetti · die Suppe · die Tomate

Phrases with modal verbs

Grammatik / A1

- Ü 1 Vergleichen Sie Sätze mit und ohne Modalverben in beiden Sprachen. Übersetzen Sie sie in die Muttersprache.

Exercise 1: Compare sentences with and without modal verbs in both languages. Translate them into your mother tongue.

Englisch	Deutsch	Ihre Muttersprache
I really <u>must go</u> now.	Ich <u>muss</u> jetzt aber wirklich <u>gehen</u> .	
He <u>can speak</u> Russian fluently.	Er <u>kann</u> fließend Russisch <u>sprechen</u> .	
<u>May I go</u> home now, please?	<u>Darf</u> ich jetzt bitte nach Hause <u>gehen</u> ?	
She <u>started to read</u> the text.	Sie <u>fang an</u> den Text <u>zu lesen</u> .	
He <u>forgot to open</u> the letter.	Er <u>vergaß</u> den Brief <u>zu öffnen</u> .	
I <u>hope to see</u> you soon.	Ich <u>hoffe</u> dich bald wieder <u>zu sehen</u> .	

- Ü 2 Vergleichen Sie Ihre Muttersprache mit Englisch und Deutsch.

- 1) Gibt es in Ihrer Sprache Modalverben?
- 2) Verwendet man Modalverben mit Infinitiv?
- 3) Gibt es in Ihrer Sprache „Verb+„zu“/„to“+Verb“?
- 4) ...

Exercise 2: Compare your mother tongue with English and German.

- 1) Are there modal verbs in your mother tongue?
- 2) Do you use modal verbs with infinitive?
- 3) Is there “Verb+„zu“/„to“+Verb” in your language?

Intercomprehension of related languages

... when several languages of the same linguistic family (Romance, Germanic, Slavonic languages, etc.), are studied in parallel, with a systematic focus on receptive skills.

For languages related to the learner's first language or the language of schooling / related to a language already learnt.

An example of intercomprehension between romance languages: *Non perdere la bussola*

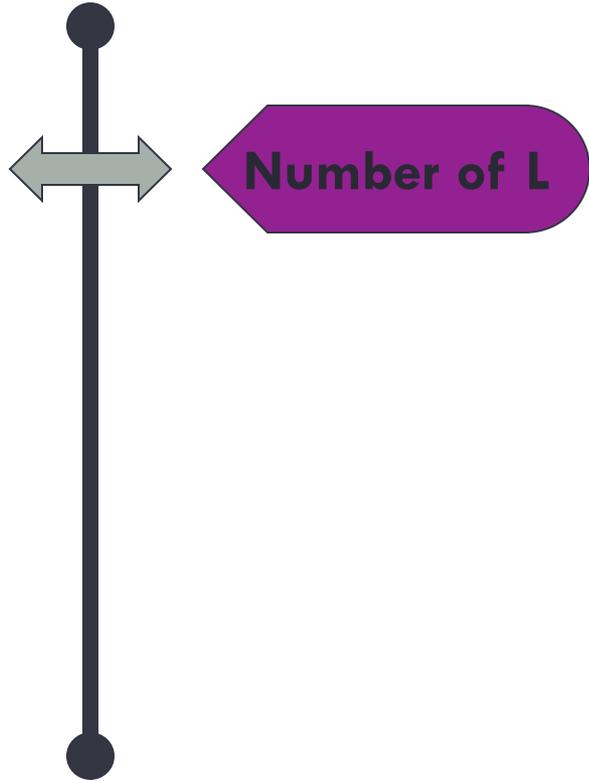

Are you able to fill in the table with the following words? *ragione, balão, pallone, razón, balon, motiv, razão, balón ?*

Portugais	Espagnol	Occitan	Français	Italien	Roumain
uma canção	una canción	una cançon	une chanson	una canzone	un cântec
uma profissão	una profesión	una profession	une profession	una professione	o profesie
uma	una	una rason	une raison	una	un
um	un	un balon	un ballon	un	un

The FREPA - Competences and resources

- All pluralistic approaches have **in common one characteristic:** they include **more than one language / culture** during classroom activities.
- This kind of tasks lead students to develop knowledge, attitudes and skills which other approaches cannot lead them to develop (to the same degree). For instance:...

Knows that each language has its own, partly specific, way of °perceiving / organising ° reality

Positive acceptance °°of °linguistic / cultural° diversity / of others / of what is different°°

Can use knowledge and skills already mastered in one language in activities of °comprehension / production° in another language

Knows that one can have a °multiple / plural / composite° identity

Curiosity about a °multilingual / multicultural° environment

Can compare different cultural practices

Preprimary	Primary 1	Primary 2	Secondary 1	Secondary 2

K 4.1 Knows that languages are linked between themselves by so-called "kinship" relationships / knows that languages belong to families

K 4.1.1

The tables of descriptors across the curriculum give an approximate indication of their relevance at different phases of the curriculum.

Theoretical framework chosen by the FREPA authors:

Competences...

- Are linked to situations, to socially relevant tasks;
- Are units of a certain complexity;
- Call upon a variety of **Resources** which may be internal (**knowledge**, **attitudes** and **skills**) or external (dictionaries, other persons...)

Learning to learn: a transversal dimension

LEARNING TO LEARN

Knows that one never completely knows a language / that there are always things one does not know / that there is always room for improvement
Knows that one can rely on the (structural / discursive / pragmatic) similarities between languages in order to learn languages

Motivation for the observation and analysis of more or less unfamiliar °linguistic / cultural° phenomena
Confidence in one's capacities °of observation / of analysis° of little known or unknown languages

Can identify languages on the basis of identification of linguistic forms
Can gain from previously acquired knowledge about languages and cultures during learning

The database CARAP-FREPA – Online teaching materials offers teaching activities which fall within the scope of **pluralistic approaches to languages and cultures**.

The purpose of this collection of materials, which include input in different languages, is to facilitate access to classroom activities which will help learners master the knowledge, skills and attitudes which the framework lists as « resources » and which can be developed by pluralistic approaches. All the materials proposed refer explicitly to descriptors of resources as they can be found in the framework.

Discussion on current practices and possibilities of implementation in your country

How are pluralistic approaches to languages and cultures integrated in (tertiary) education in your country? How could they be integrated?

- Integrated didactic approach (languages that are part of the curriculum, e.g. German after English)
- Intercomprehension between related languages (receptive skills)
- Awakening to languages
- Intercultural approach

Description

The four activities are based on extracts of the Universal Declaration of Human Rights, translated into various languages. Participants are invited to draw on their knowledge of languages and use comprehension strategies in order to, first of all, guess what text it is,

	Knows that each language has its own, partly specific, way of °perceiving / organising ° reality
	Positive acceptance °°of °linguistic / cultural° diversity / of others / of what is different°°
	Can use knowledge and skills already mastered in one language in activities of °comprehension / production° in another language
	Knows that one can have a °multiple / plural / composite° identity
	Curiosity about a °multilingual / multicultural° environment
	Can compare different cultural practices

How could the FREPA descriptors be used in (tertiary) education in your country?

ROPP (Referenčni okvir za pluralistične pristope k jezikom in kulturam) in pluralistični pristopi v Sloveniji

Stran nudi pregled razvoja pluralističnih pristopov v Sloveniji in gradiv v slovenskem jeziku.

Pregled projekta ROPP:

Za kaj gre? Gre za izčrpen opis in konkretno uporabo večjezičnih in medkulturnih kompetenc ter virov, ki jih pri pouku najboljše razvijamo s t. i. pluralističnimi pristopi. Na ta način Referenčni okvir za pluralistične pristope (ROPP) pomembno pripomore k doseganju izobraževalnih ciljev Sveta Evrope za področje jezikov in kultur.

Kaj so pluralistični pristopi? Izraz pluralistični pristopi k jezikom in kulturam se nanaša na didaktične pristope, ki v učnem procesu vključujejo sočasno rabo več (ali vsaj več kot ene) različic jezikov ali kultur. Asproti temu pristopu so... **več**.

Kdo bi moral poznati Okvir za pluralistične pristope (OPP)? Učitelji vseh predmetov, ki jih zanima večjezično in medkulturno izobraževanje, izvajalci usposabljanj za učitelje, odločevalci, snovalci kurikulumov, avtorji učnih načrtov in učbenikov.
